SWEET DeCarbCH Networking Conference 2025

DeCarbCH is a research project sponsored by the Swiss Federal Office of Energy's "SWEET" programme (Call 1-2020) and coordinated by the University of Geneva.

The DeCarbCH project addresses the colossal challenge of **decarbonisation of heating and cooling in Switzerland** within three decades and it prepares the grounds for negative CO₂ emissions.

This year annual conference is special as it represents the end of phase I one and many work packages and the beginning of phase II. It will be an occasion to **present the research ongoing** within the SWEET DeCarbCH project in more detail but even more importantly to **share knowledge** and to **exchange with the DeCarbCH cooperation partners about the real problems and issues** that are currently impeding the smooth and rapid decarbonisation of heating and cooling in the various sectors.

Monday, 3. March 2025

With cooperation partners

The first day will commence with researcher pitches, showcasing various concrete studies and projects from different work packages. Each presentation will be accompanied by a **poster**, which attendees can explore during the breaks. Following these sessions, the **main highlights** of Phase I of DeCarbCH will be presented, along with an **outlook** for the next years. The day will conclude with a **networking dinner**, to which everyone is warmly invited.

Tuesday, 4. March 2025

For DeCarbCH researchers only

The second day will be exclusively dedicated to the researchers involved in the SWEET DeCarbCH project. The morning session will feature three **guest speakers** from external projects that holds significant relevance for DeCarbCH. Following this, the remainder of the morning will be organized into a facilitated **workshop** designed to foster active discussions on various topics such as the project impact, collaboration, and other critical aspects of the work packages.

A word from the DeCarbCH Management team

The DeCarbCH management team is thrilled to meet all of you.

The team would also like to remind you about our bimonthly newsletter ([subscribe](#)) and our monthly lunch talk ([here](#)) previous ones are all available on YouTube ([here](#)). SWEET DeCarbCH is also present on [LinkedIn](#) and [Twitter](#).

All the best from the DeCarbCH Management team.
